You should convert pdf pages to images For this you can use Adobe acrobat reader(Not the adobe reader which is free) or in Linux I use GIMP to open a pdf and then I select to open each page in a separate image.. (even the encoding was known)Very often PDF files in non-Latin scripts (especially RTL scripts such as Arabic, Hebrew and Farsi) are generated by software which sort of LTR-i-fies the text at the word or sentence-fragment level, or just somehow gets the right glyphs to display but you get gibberish for the 'logical' text.. Additionally, a 404 Not Found error was encountered while trying to use an ErrorDocument to handle the request.
